

GAURAV DOONGARWAL

FULL-STACK SOFTWARE ENGINEER

+91 93565-22370
gauravdoongarwal@gmail.com
Hyderabad, India
[LinkedIn](#)

TECHNICAL SKILLS

- Coding Languages/Frameworks:**
Java, Spring & SpringBoot, ReactJS, JavaScript, TypeScript, SQL, HTML, CSS, WebDriverIO, Selenium, JMeter, Cucumber.
- Database Tools:**
MySQL, Snowflake, Postgres SQL.
- IDE/Editor Tools:**
IntelliJ, Eclipse, VS Code
- Cloud/Build/Other Dev Tools:**
AWS Cloud, Maven, WebPack, JFrog, Jenkins, Postman, Git/GitLab, Jira, Confluence.
- Operating System:**
Windows, Linux

LANGUAGES

- English
- Hindi
- Punjabi

ACHIEVEMENTS

- HighFlyer Award —**
Highradius Technologies (H1 2024)
- Award of Applause —**
Highradius Technologies (Mar 2024)

HOBBIES

- Travel Enthusiast:** Passionate about exploring new places and cultures.
- Sports:** Active in volleyball, cricket, and chess.
- Community Service:** Volunteer and organizer for blood donation camps with "Donate Blood to Donate Life."

PROFESSIONAL SUMMARY

Full-Stack Software Developer with 3+ years of experience building scalable, high-performance web applications. Skilled in Java, Spring Boot, ReactJS, AWS, and SQL. Passionate about clean architecture, optimization, and continuous learning.

WORK EXPERIENCE

- Software Development Engineer II**
Highradius Technologies
Jan 2025 - Present
- Backend Development:** Built scalable services using Java, Spring, and Spring Boot, handling over 100,000+ API requests per day; designed and integrated 20+ RESTful APIs; developed multi-agent systems with JADE for distributed tasks.
 - Frontend Development:** Developed responsive web applications with ReactJS and TypeScript; improved page load times by 30% by optimizing Redux-Saga implementations and lazy loading.
 - Database Management:** Designed and maintained databases with MySQL and Snowflake; optimised MySQL Query performance by 25% and Snowflake Queries by 70%.
 - Project Setup:** Configured UI and backend projects across multiple AWS environments for scalable deployments.

- Software Engineer I**
Highradius Technologies
July 2024 - Dec 2024 · 6 mos
- Analytics:** Developed Forecast Accuracy Dashboard for data visualization using Python Jinja Templating, ReactJS and SQL queries using Snowflake and MySQL.
 - Data Migration:** Built and deployed a Java Agent Pipeline to migrate over 50M+ records from MySQL to Snowflake with zero downtime and 99.9% data integrity.
 - UI Automation:** Designed and implemented a UI automation framework using WebdriverIO, JavaScript, Java, Selenium, and Cucumber; automated 80%+ of regression test cases, reducing manual QA effort by 50%.
 - Cloud & VCS:** Deployed and managed applications on AWS; automated CI/CD pipelines with Jenkins; collaborated with teams using Git and GitHub.

- Associate Software Engineer II**
Highradius Technologies
Jan 2024 - June 2024 · 6 mos
- Analytics:** Reduced the Dashboard loading time from 27 seconds to 5 seconds making the load time 5x faster by optimising MySQL and Snowflake queries.
 - Development:** Developed 10+ Rest APIs using Java and ReactJS; Integrated Monaco Text Editor for implementing Excel-like formula grammar using ReactJS, TS, SpreadJS, Java and ANTLR.

- Associate Software Engineer I**
Highradius Technologies
July 2022 - Dec 2024 · 18 mos
- Development:** Developed 20+ Rest APIs using Java and ReactJS; Optimised UI side page loads by 20% and delivered 5 complex functional features.
 - Testing:** Implemented Frontend & Backend Unit Testing using Jest and Mockito Tools with more than 80% code coverage and wrote 130+ automation test cases.

WORK EXPERIENCE

- Bachelor of Engineering in Computer Science**
Chandigarh University
CGPA - 8.02/10
July 2018 - June 2022
